For women with fine and thinning hair who are looking for a wearable solution to provide volume and coverage to the top of the head.

THE BASIC VOLUMIZER is designed to integrate with the client's natural hair through the base without damaging the hair. In addition, the system is connected underneath using non-damaging round-edged aluminum coated connection points to secure the system from moving. This allows the client to wear the Volumizer 4-5 weeks, night and day, before returning for a re-set appointment. The base is almost weightless, breaths and will not trap water underneath.

- Non-damaging, non-invasive
- Requires no chemicals, glues or adhesives
- No shaving of the head is required

UNIQUE FEATURE

100% hand-tied in a double split knot throughout the interior of the Volumizer to create the lift needed to allow the hair to move in any direction. Hair along the perimeter is tied in a double flat knot to blend with the client's own hair. Looks and feel totally natural.

PRODUCT DESCRIPTION

- + **LENGTH:** 12" (10" grey hair)
- + **PARTS:** None
- + **DENSITIES:** Medium, high

<i>*Certified stylist only</i>	PRICE: \$599.00

For women who no longer have enough hair to integrate thru a system because of severe thinning in the bang or part areas.

SOLUTIONS FOR

Women who no longer have enough hair to integrate thru a system because of severe thinning in the bang or part areas. The invisible part aids in disguising the base and providing additional coverage.

The system is connected underneath using non-damaging round-edged aluminum coated connection points to secure the system from moving. This allows the client to wear the Volumizer 4-5 weeks, night and day, before returning for a re-set appointment. The base is almost weightless, breaths and will not trap water underneath. Clients feel like it is part of them and forget they are wearing it.

- Non-damaging, non-invasive
- Requires no chemicals, glues or adhesives
- No shaving of the head is required

UNIQUE FACTOR

The part is made of a see-through monofilament that allows the natural color of the client’s scalp to show through, allowing for a perfect skin tone match.

PRODUCT DESCRIPTION

- + **HAIR LENGTH:** 12" (10" grey hair)
- + **PARTS:** Right, center, left
- + **DENSITY:** High
- + **TEXTURES:** Silky straight, natural body wave, deep curl
- + **COLORS:** (28 basic colors, 7 blends, 4 bleached, 7 standard grey blends, or can be customized at 40%, 60%, or 80% grey (using 60S silver grey) mixed with any of our 28 standard basic colors)

<i>*Certified stylist only</i>	PRICE: \$675.00

For women who have severe hair loss in the front and are no longer candidates for Basic or Invisible Part systems.

SOLUTIONS FOR

Women who have severe hair loss in the front and are no longer candidates for Basic or Invisible Part systems. These women have no other choice then to use tape or adhesive to attach the system in the bang area. To create as natural look as possible, while still respecting the integrity of the hair the client may have on the back and sides, the system is made up in three parts:

- The French lace gives a natural look across the forehead. Additional French lace is used for a right, left, or center part.
- There is an area to attach with tape or adhesive to stabilize the system.
- The sides and back are secured using round-edged aluminum coated connection points.

UNIQUE FACTOR

French Lace is durable, transparent, light weight, and, like the Volumizer base, does not trap water.

PRODUCT DESCRIPTION

- + **HAIR LENGTH:** 12" (10" grey hair)
- + **PARTS:** Left, right, center
- + **DENSITY:** High
- + **TEXTURES:** Silky straight, body wave, deep curl
- + **COLORS:** (28 basic colors, 7 blends, 4 bleached, 7 standard grey blends, or can be customized at 40%, 60%, or 80% grey (using 60S silver grey) mixed with any of our 28 standard basic colors)

<i>*Certified stylists only</i>	\$825.00

For women who are candidates for either a basic or invisible part system but need more options to fit their lifestyle.

SOLUTIONS FOR

Women who are candidates for either a basic or invisible part system but need more options to fit their lifestyle. The Twin system offers removable non-damaging clips that can be reinstalled whenever needed, allowing the client the option to install with or clips when necessary. Client may choose to wear the Volumizer 4-5 weeks, night and day, before returning for a re-set appointment or clip-in the system and removing it at night. The base is almost weightless, breaths and will not trap water underneath. Clients feel like it is part of them and forget they are wearing it.

- Non-damaging, non-invasive
- Requires no chemicals, glues or adhesives
- No Shaving of the head is required
- Clips are comfortable and lay flat to the head

UNIQUE FACTOR

The clips are attached to bridges that are sown into the volumizer. Each bridge and clip were designed to fit the planes of the head. This designed is more comfortable and lays flatter to the head creating a more aesthetically pleasing natural look.

PRODUCT DESCRIPTION

Our Mini Twin System Volumizer is the same as our Twin System Volumizer, except with a smaller base size.

SOLUTIONS FOR

Our Mini Twin System Volumizer is the same as our Twin System Volumizer, except with a smaller base size of 4.5" x 3.5" for the client with a smaller head circumference.

Can be worn with clips for a temporary look or installed with connection points for longer wear.

System has four (4) bridges sewn into the system. Clips come pre-installed. Can be removed and reinstalled depending on need.

**Shown without bridges/clips*
